ANNOTATION

On the first Book of the

CHRONICLES.

The general Argument of the two Books of Chronicles.

The two Book of Chronicles, of old compiled in one, contain an history of three thensand four hundred fifty and fever years at least, even from addam, I Chr. 1. 1 to the return of the Israelites from the Babylonish capitolity, I jeven year at topt, even from a name, 1 our that the treatment of the special product of the perman of these 2 Cer. 36 23. Tea, the genealogy of Davids posterists extended for further, 1 Chr. 2.19, Ge. The perman of these Books pruned also that of Exta, as appears by the two less verses of the second Book of Chronicles, and the three suff of Exta, which are almost the same word for word. By which also it appears that they were penned after the capitotity. And it is probable that the genealogies here let down and a great pare of the Histories were taken out of Records kept by fome of the Priefts or Levites all the time of the captivity.

The special Argument of the first Book of the Chronicles.

An History of two themsand nine hundred feurscore and seven years is registred in the sirst Bank; of which two them.

And nine hundred sourty and seven are passed over in reciting Genealegies, a sew brist historical passed thing bere and there inferred, and the death of Saul added thereto, th. 10. The Genealegies are an evidence of Gods providence in one interesting the Church generation after generation, and memorials thereof being for the most part of such as apparaised to see Church. Fourty years more are added about the alls of David in the time of his reign, with while death the first Book is concluded, ch.29.27, &c.

The Title.

The fif Book] This diffinction is expressed by reason of that division of the Chronicles which the Church hath

uled for many generations. See the general argument.

Of the Chronicles A Chronicle is a register of acts done time after time. The Hebrew title, Words of days, or, Dreds of dages, importeth the same that the title Chronicles duth. The Greek title, Пасодынация, Remainders, hath relation to the Books of the Kings, as if the Chronicles had gathered up what the Books of the Kings had left out. True it is, that in the Books of the Kings there are frequent references to the Book of the Chroniclus; but thefe Books of facred Chronicles cannot be there meant, because not then penned. See the general Argument, Befides, many things there referred to the Books of the Chronicles are not found in thefe Books.

CHAP. I.

Dam] This was the proper name of the first man, gibody was framed, the Earth, Gen. 2.7. It fometimes compriseth under it both Man and Woman, Gen. I. comprifeth under it both Man and woman, Comp. 27, & 2.23. & 3.22,24. yea, and all mankind, Gen.

Sheth] In this first genealogie the names onely of men are fer down for brevities fake, but in fuch order as the fon succeeds his nown use determine stace, but in then order as the lon increeds his father. Some, to make up the full fenic, would add this phrase, it born, as it is had been said, of Adam 8 beth is born. Some thus, Adam 8 beth is born. Some thus, Adam 8 beth is lon, and to in the reft, Shoth was not Adam 6 ift son, but Cain, Gen. 4,21. But Cain and his posterity were an impious generation, and belonged not to the Church, Abel was Adams next son: But he, before he had any children was flain by Cain, Gen. 4.8. After Abels death Sheth was born, and called Sheth, because put or appointed instead

of Abel, Gen. 4.25.

Enoth The eldeft fon of Sheth called Enoth in memorial of English The cheek tonor special cause English in memorial of that milerable and mortal condition whereunto man was brought. For English fignifieth milerable or mortal. The posterity of Cain ha-ving filled a great part of the world, with an impious and profane brood, Enosh gathered such as came from him into a Church, and brought them to worship God publikely, he himself being as a Priest unto them in the room of Abel. In this respect it is said of Enoth his time, Then began men to call upon the name of the Lord,

Gen.4.26. These three first names, Adam, Sheth, Enosb, according

to their signification import thus much, Man made mortal, V.a. Kenan, Mahlatel, Jered Of these three there is nothing registred, but their names, their long life, and that they begat some

and daughters See Gen. 5.12, &c. V.3. Henoch] This man is expresly faid to be the seventh from Adam; and this genealogy declares it fo to be. He prophefied in his time of Chrifts coming unto judgment, Jude 1415. There is an excellent commendation given of him, that be multed with Gold, Gen., 2... The Hebrew word there uld implyed a canimal walking with Gol. To multe with Gold is all one as to walk before Gold, subsect for Kinn. God; whereof fee I King. 2.4. In that respect Henoch is said to have pleased God, Heb. 17 5. And as an evidence of Gods gracious acceptance of him it is faid that he was not: for God took him, Gen. 5.44. He was not on earth after the three hundred and fixty and five years of his life: For Godhad translated him that he should not fee death. That translation was both from one place to another, namely, from earth to heaven; and also from one condition to another, namely, from mortality to immortality. Thus was he translated as Elijah was afterwards, 2 King 2.11. and as the Saints was atterwards, 2 sange, 211 and contings, Cor. 157, 15, 25, 73, and in this repect he arver faw death, Heb. 11. f. Hough twere one of the best Partiarches before the flood, yet he lived the forcet flood, yet he lived the flower than of them all 160 as the best men may be foonest taken. unortent time of them all 100 as the best men may be 100 nest usual out of this world. Enochs constitual walking with the Lord well answereth the notation of his name, which is dedicated. By his parentage and constant pious carriage he is diffinguished from Cains fon, who gave his own name to a City that he built, Gen. 4.17. and

from Abrahams grand-child by Keturah, Gen. 25. 4. and from Reubens son, Gen. 46.9. Though there be in our English translation a little difference in these names, yet in Hebrew they are the

Methufhelah] This man lived the longest of all the Patriarchs be-Manujonary I his man lived the longest of a fifter a finite is before the slood, Gen. 5.27, yea, we may well say, the longest of all that ever were on earth. Some imagine that Adam may be accounted elder then he, because he was of man-age when first created. But Methushelah lived thirty nine years longer then Adam; and it is to be supposed Adam was created in the stature of a young man. Now grant him to be of such a seeming age when he cat of the forbidden tree as Christ was when he dyed upon the tree, and add so many years, (which were betwixt XXXIII, and XXXIV.) yerthey will not make up the full years of Methushelah, Methuhelah died about the time of the coming of the flood.

Lameel This Lameel the fon of Methushelah, is distinguished

from that impious and cruel Lamcch which was of Ca ns posterity, Gen.4.18,19. He had the gift of prophesic as appears by the name Nonh which he gave to his son, and the reason rendred there-

of, Gen. 5.29. He dyed about five years before the flood, V.4. Noab] This was the tenth and last great Patriarch before v.4., rows.) and was the tentral and the great cartainth observe the flood. For his fon Shem is reckened among the Partiatchs after the flood. His name fignifieth reft; and he brought comfort, reft and reftrefhing to the world. He was a lively type of Chrift, who is the comfort, reft and peace of man. In the Ark which he built was the feminary of the World and the Church preferred; a matter of great comfort and rest. In the sacrifice he offered up when he came out of the Ark God smelled a favour of rest, Gen. 8.2. To him God renewed a Covenant of peace and reft, no more to drown the world, Gen. 9.9. The hildory of this man is fer down Gen. 6, & 7, & 8, & 9. From the beginning of the world to the flood, which fell out in Noahs dayes, were a thousand fix hundred fifty and fix years.

Shem Though this man be here and in fundry other places fet Shefore Japheth, yet is Japheth said to be the elder, Gen. 10, 21.

And thus it appears to be so; Noah is said to beget shem, Ham, and Japheth when he was five hundred years old, Gen. § 32. And again it is faid, Shem was a bundred years old two years after the Moah, and continued about one year. Compare Gen. 7.11. with Gen. 8.1314. If then Shem had been born in the five hundredth year of Noah, he would have been an hundred years ald about year of Noahs entring into the ark. But it being two years after the flood before he was an hundred years old, he must by this computation be born when Noah was five hundred and three years old. Whereas it is faid that Noah was five hundred. years old, and begat Shem, Ham and Japheth, we are not to think that he begat all these three sons in that year, but, according to the meaning of the Hebrew phrase, he then began to beget them. In meaning of the Hebrew phrase, he then began to begat them. In the year he begat Japheth, two or three years after he begat Shem, and after these he begat Ham; for Ham was his younger fon, Gen. 9-4. Shem threefore is put in the first place for digni-ties lake, as, Inac and Ilhmael, Gen. 15. 9. Factor and Essu, Gen. 28.5. Behraim and Manassel, Gen. 48. 20. Shem was the famile and head of all those Partarchethat were born after the slood, and were in their order Progenitors of Christ. He lived about thiny years after Abrahams decease. And by reason of the many years he had lived before Abrahams time, his father, his mother, his descent, and beginning of his dayes were not known to Abraham and those that then lived. In this respect he is reputed both by many of the Jewish Rabbins and also by ancient and later Divines of the Christian Church to be that Melchisedech who met

whese the Christian Church to be that we remueated who met Abraham, Gen. 14.18. Heb. 7.1, &c. Ham] This was the youngest of Noahs three sons; one of those that were in the ark, but after he came out of the ark, he was curfed for fcoffing at his fathers infirmity, Gen. 9.12,24,25. The land wherein his posterity was to dwell, was adjudged to the posterity of Shem, Gen. 12.7. which may be one reason why he is set next to Shem, before his brother Tapheth.

Sometimes like letters are purone for another, as here, 7 R for 7 D. Compare Gen. 21.3. with Amos 7. 9. Some times a letter or fyllable is left out, as Jer, 22, 28. Sec. 2 King. 24.6. Sometimes letters or fyllables are transposed, as Salathiel, Matth. 1.12. for Shealtiel, Ezr. 3.2. Sometimes a letter or syllable Matth.,112, for Shipath's, P27,3,3, Sometimes a letter or 191able is added, as v.17. Milbs to mall hj. In Davids time the number of Levites being exceedingly encreased, he distributed them into diftinct orders, and being a man zealous of Gods glory, he did not onely use to quicken up his wom spirit by occal and inftrumental musick, but also setced fundry orders of Levies in their places and courses, both by voice and by sounding and stringed instruments to quicken up the spirits of Gods people to praise him the more cheerfully. See ch. 15,1,8c. In these respects to is shield the sweet Psalmis of Isach, 33m.3.1. Though before Davids time there was great use of all manner of musick about the service of God, yet in his time and after there is much more registred of musick in Gods house then in the dayes before him.

and to make an atonement] This phrase is the interpretation of one (hort Hebrew word,) Caphar, which properly fignifieth to cover. The cover of the Ark is fer out by a word derived from that root, Exod. 25.17. Metaphorically it is applyed to Sin, and to Wrath incenfed by fin; and fignifieth to cover them, i.e. to pardon fin, and to pacific wrath: as Pfal. 78.38. where it is translatedd, He forgave iniquity, the Hebrew faith, He covered iniquity. And where in relation to the wrath of the King it is faid, A wife man will pacific it, in Hebrew it is, A wife man will cover it, Prov. 16.14. It oft fignifieth to be propitious, favourable, or merciful; ds Deut. 21.8. Be merciful to thy people I frael. The word is frequently translated to expiate, i. e. to purge or take away any uncleannes, fo as it may not be imputed. It is also used, to make fit for holy uses. Thus it is applyed to things under the Law, and to persons; as, to the holy Sanctuary, to the Tabernacle of the Congregation, and to the Alar; to the Priests, and to all the People of the Congregation, Lev. 16.33. Atonement, according to the English notation of the word, implyeth being at one, and may be opposed to two or more being at odds or variance. Such an Atontment is as much as Agreement or Reconciliation, This in regard of that odds which is between God and man is done two wayes; 1. by taking away fin, the cause of wrath; 2. by pacifying wrath, the effect of sin. Under the Lawthis was typisied by Offerings for sin, and Incense; by the former whereof fin is removed, and by the latter wrath is pacified. Though these may thus be distinguished, yet can they not be severed: For except fin be taken away, wrath will not be pacified:
And were it possible that wrath could be pacified, if fin remained, it would be incensed again. By the Prietts making atonement legally, Christs making reconciliation betwikt God and man was

For all the chapters of this book, after this, fet out the reign of David; and the other book book, after this, let out the leight of David; and the other book fets out the hiftory of his pofferity fucceeding him in the throne, Now the more recommend Davids reign, the tragical end of his predecessor is here briefly related. The Philitims here mentioned predecessor is here briefly related. The Philithms here mentioned were the entenies that destroyed Saul and his sons. Of their oriental, see Gen. 10.14. They dwelt in the land of Canana when Johua came to conquer it; but were referred to be fourges to the Israelites, Judg. 3.13. and they alwayes proved deadly enemies to them, Judg. 13.1.8cc. It was a great blow that they gave lifted when they took Sauson, Judg. 16.1.1 but that recorded in this chayter had been a greater, but that God raised up David to reastir the dampage and distruct which was bruncherupen. This confultation about feeling the Ark might be before the histories in ch. 14. though those histories be set down before the setling of the Ark, 2 Sam. 5.11, &c. For the Pen-man of that book of Samuel fers down the whole history together, namely the first attempt of David, upon which Uzzah was flain, and the perfecting of his intent, down the histories of Hirams sending to David, and therefore he sets down the histories of Hirams sending to David, of Davids taking more wives, and of his two victories before his first attempt about the Ark, because they fell out before he had finished his intent. But those histories happened after the death of Uzzah, and before his fetling of the Ark in the City of David; and therefore they are inferted in their due place, ch. 14.1, &c. Thou [halt not build me an house to dwell in] This is directly contradictory to what David intended and Nathan approved. Men may have good intentions which are not agreeable to the secret will of God. And extraordinary Prophets are oft ignorant of Gods purpoles. See 1 Sam. 16.6. 2 King. 4.27. Gods answer is set down interrogatively, 2 Sam. 7.5. Shalt thou build me an house for me to dwellin? which addes great emphasis. He saith nor, Shall an house be built? but, Shall thou build? which doth not declare the intent it felf to be unlawful, but onely the person that intended it not to be meet for the work. That the thing purposed was good and commendable is evident by Gods appointing it, 1 King. 8.18. The reafons why David was not fit to do it, were, I. Because he had shed much blood, ch.22.8. II. This interrogative sheweth that God never required any of the Governours of Ifrael, from Moses to David, to build a Temple for him: And therefore David should not have attempted such a work without warrant from God himself. So this is a further reafon to demonstrate that it was not meet for him to build a Temple, because God had not required it of him.

That inhibition was for a time, while that by therhood or kindred that had been betwint the fathers of those nations was fresh in memory: Esau, the father of the Edomites was Jacobs brother; and Ammon and Moab were sons of Lot, who was Abrahams kiniman. But thefe three nations bearing an implacable hatred against Ifrael, and being their deadly enemies. Pfal. 83.6,7, and their hatred increasing more and more, generation after generation, they became at length unsufferable: and it is probable that they first set on David, as the Philistims did, ch. 14. 8. and so gave the occasion of the war. The occasion which Ainmon gave is expresly fet down 2 Sam. 10.1, &c. The Edomites took part with the Syrians, and so brought destruction upon themselves. See v. 11,12. But it is very probable that they were of the choicest fore; and not few in number; so as this addern exceeding much to the worth of the crown, though to the weight but little, if any thing at all. It is faid, 2 Sam. 12. 30, the weight was a tatent of gold, with the precious flones. The gold and precious ftones together made up the weight of a talent.

even so dealt David with all the Cities of the children of Ammon] I Suppose this hath especial reference to the latter end of v.2. where It is faid that David brought much spot out of the city. There is no mention made of that estage wherein David lest them; but it is probable that he made them tributaries, and put garrifons over them, as he had dealt with the Moabites and Syrians, ch. 18.2,6. We read after this, that Shobi the fon of Nahash shewed great courtesie to David when he fled from Absalom, a Sam. 17.27. Whence we infer that David took all kind of government from Hanun, ch. 19.2. and made his brother Shobi Governour over the Ammonites, but tributary to Ifrael.

That which is here attributed to Satan, is in 2 Sam. 24. 1. attributed unto God, namely that be moved David. Some apply that relative he to Satan, q. d. The anger of the Lord was hindled against I state, and Salan moved David against them; but there is nothing in a Sam. 24.1, that can give an hint of fuch areserence; therefore it is to be taken for truth, that both God and Saran moved David; God, as a just Judge, using Saran as his minister therein, that he might punish both David and his people for other fins; (fee I King. 22, 22.) and Saran on a nus people for other sins; (see I amig. 22.2.) and Javan off a michievous intent putting on David to such a sin a might bring vengeance on the people. This phrase, He moved David against lifted, sheweth that sins of Kings prove prejudicial to their people. Besides Davids own fins, the peoples sins moved God to give him over to Saran; and for his sin were the people punished,

When they saw they could not prevail with David, they tarried no longer with him, but went to vali with David, they tartied no longer with num, but went to execute what he had given them incharge. A queltion is here moved, Whether they did well, or no, in obeying the King. They who hold they did not well, alledge these reasons: 1. It is unlawful to be accellary to fin. 2. They did it against their conference, 3. They themselve judged one vengeance would follow thereupon. But a general answer may be given to all these, That the act upon nuc a general aniwer may be green to art notes? I attend att required of them which was to number the people was not fimply finful, fee v. The fin was in Davids mind, and in the end he pro-pounded to himfelf, to which Joab and the Captains were not acceffary. Neither can it be faid they finned against their conscience: For howfoever they might think David did not well in prefling the thing to far ashe did, yet in their confeience they might be per-fwaded that they ought rather to obey their King in his refolute tranea mat they ought rather to deep their raining in in Frienize command their incut his diplocative by an utter reliafal. If they obeyed meetly out of a flayifu disposition to do any thing, though final, meetly out of a flayifu disposition to do any thing, though final, upon their Soveraigns command, questionleis they fined. Thus José fined, when upon Davids letter he put Urish in the fore-tront of the battel, 2 Sam 11.15,80c.

mere at houseand thouseand, and an interest thouseand There are but eight hundred thouseand mentioned 2. Sam. 24.9. For reconciling the difference it is faid there were eleven hundred thouseand numerical thouseand thou bred by the Rulers that went into feveral tribes; but because the matter feemed abominable to Joab, v. 6, he was not careful to put all into the publick records, but eight hundred thouland onely. This Joan might do partly through paffion, and partly because he had intelligence of the beginning of the plague, which made him leave off before he had finished all. See ch-27-24. But the Penman of the Chronicles finding other records, put the total summe together in his facred history. Others answer, that the Rulers numbered all the males, whether fit for war or no, which amountains the males of the fit for war or no. ted to eleven hundred thousand; and that Joab registred none but valiant men, which were but eight hundred thousand. But it is faid that the eleven hundred thoufand were men that drew fwerd , and in that respect fit for war ; fo as this answer will not well reconcile the case. A third is, That the Rulers brought in the number of all that were fit to bear arms, whether before enrolled or no; and that Joab left out the trained bands, which were before enrolled, and did their fervice in Jerusalem every moneth. Of thefethere were four and twenty thouland for each moneth, in all, two hundred fourfcore and eight thousand : And over them there might be twelve thousand Commanders and Officers, which make up in all three hundred thouland; which being added to the eight adred thoufand, 2 Sam. 24.9. make up the number mentioned in

V. 6. But Levi and Benjamin counted he not among them] Some thus interpret these words, that Joab did not put those that were of Levi and Benjamin into the Kings records; whereupon there be but eight hundred thousand in the account, 2 Sam. 24. 9. Whereas if all the Levites and Benjamites had been added, they would have made up eleven hundred thousand. But the reason that followeth in this verse, and these express words, ch.27.24. Taab began to number, but he finished not, because there fell wrath fo it against I frael, imply that these two tribes were not numbred at all, He might forbear to number Levi, because they were to attend the service of the Tabernacle; and Benjamin, because the plague was begun there before he returned to that tribe, chap,

V. 8. And David [aid unto God] Before this it is premifed i Sam. 24.10. And Davids heart fmote him after that he had numbred the people. This fmiting of the heart implyeth tenderness of conscience when a man upon confideration of fome evil he hath done check eth himself for doing it. This phrase is once before applyed to David, 1 Sam. 24.5. And we read it not applyed to any other throughout the whole Scripture, though there were many of very tender consciences. It was the fin it self that now troubled him and when he saw judgment inflicted for the sin, he was again troubled, v. 16, 17, yet his heart continued hardened all the time that Joab was numbring the people, which was nine moneths and twenty dayes, 2 Sam. 25. 8. While fin is in committing, man uleth to have little remorfe; but when it is finished, then the conscience is wont to be troubled.

V.9. And the Lord Spale unto Gad] In 2 Sam. 24.11. this claufe is premifed, Forwhen David was up in the morning. Whence fome infer that the reason why Davids heart smote him was, because Gad told him of Gods displeasure against him for his fin. But that causal particle for is not in the original. It is onely a copulative particle. and David rofe. This was questionless the next morning after loab had given up the number of the people to him, and he had deprecated pardon. Though confession of fin, and begging of Pardon be acceptable to God, yet he may inflict judgment for it, as 2 Sam. 12, 13, 14, and that to make the finner more wary of doing the like again, to thew his indignation against the fin it felf to make others fear, and to vindicare his justice.

V.12. Either three years famine] This in 2 Sam. 24.13. is thus fet down, Shall feven years of famine come unto thee in the land? The difference may thus be reconciled. This was the fourth year from the beginning of that three years famine, 2 Sam, 21.1. fo that if there had been three years famine more, it would have been accounted a famine of seven years. In this place the Holy Ghost hath reference onely to the time to come, and therefore mentioneth but three years ; in the other he bath reference both to the time past and also to the time to come, and in that respect extendeth it to feven.

The Pefilence is called the fword of the Lord, in opposition to War, wherein a material sword by the hand of man is used. The Pestilence is a more immediate stroke of God then War or Famine : For in war men are destroyed by the hand of man, namely by fuch instruments as man uset hit Famine also useth to happen by the means of other creatures, as extreme heat and drought, 1 Kin, 17.1. Over-great violence of waters Prov. 28.3. Caterpillars, or other like fruit-devouring creatures, Joel 1.4. But the Pestilence oft comuch so as no man can discern any external cause thereof; and many times some are so destroyed and others fo prescreed, as no man can give any outward reason of the difference: so as this kind of judgement is more immediately ordered by God then either Famine or Sword.

and the Angel of the Lord destroying Great question is made whether this were properly one of the Angels or note if an Angel whether 2 good or a bad one? It is without all question, that a true proper Angel may in the space of three dayes, and less, go thorow a whole land; and destroy as many as were here destroyed. For an Angel is a Spirit, and therefore not hindered in his motion by any bodily obstacle. And Divine vengeance being an effect of justice, a good Angel may execute it. God also may use an evil Angel to execute his Judgments. But whatsoever it be that he imployeth in the performing of his will, may in that respect be stiled an Angel, because it is fent of God. For the word Angel, according to its proper no-

V.13. And David faid unto Gad, I am in a great (trait] Every of the judgements was fo terrible as he scarce knew what to say. for very great a reh in metrics? Joe, many are his merciet. This is added as the reason why he chose that judgment which God most immediately ordered: He knew that God was pittial and merciful; and that is, in the midth of judgments, he saw a people penitent-

ly humbled, he would cease to smite, and spare his people.

but let me not fall into the band of man] By this phrase he deprecatch the other two judgments, War, and Famine, and prayeth that neither of them may fall upon him, or his people. It was shewed before, that Man hath his hand in War; Man smiteth with the fword, casteth the javelin, shooteth the arrow or the bullet, ordereth all warlike instruments; yea, he ordereth the beafts that are employed : So as according to the mind of Man greater or less cruelty is used in war. But men for the most part air very cruel against their enemies. Of them thus saith God, I was but a little displeased, and they helped forward the afstition, Zach. 1.15. Isai. 47.6. 2 Chron. 28.9. Something also may be attributed to Man about Famine, in that the rich use by hoording tributed to Man about Failine; in that the value of new year and heaping up for the future to make the famine more grievous tothlofe that have nothing but for the very prefent. David, by chusing Pefilience rather then Famine or War, giveth evidence both of his Piety and Charity. Of Piety, in that the would have God onely fought unto and praifed for deliverance: Both which would be done more in a Plague, then in a Famine or War. Of Charity, in that he chuseth such a kind of judgment as would oppress the poor no more then the rich, and Subjects no more then Princes. All persons are alike subject to the Pestilence: But in Famine the wealthier may better provide for themeloves then the meaner for: In war allo great persons may get castles and other places of strength to defend themselves in, or may give ransomes for themselves, when the poor have no means at all to help themselves

against the enemies rage.
V.14. So the Lord sint Pestilence upon Israel] The Pestilence is a kind of venemous disease, then which there is none more mortal to the person infected, or more infectious to others.

and there fell of I frael feventy thousand men] Here was a wonderful flaughter on a sudden. We read of fourteen thousand and seven hundred destroyed by a plague, on such a sudden as Aaron could not, time enough, prepare incense to make an atonement for them, Numb. 16-47,49. There died twenty four thousand at another time in the wilderness, and on a judden, Numb. 25.9. In one night fuch an Angel as this here mentioned destroyed an hundred fourfcore and five thousand, 2 King. 19.35. These great destru-tions shew that God had an especial hand therein. God is said to do this, 2 Sam. 24.15. from the moving even to the time appointed, i.e. From the moving after that Gad had brought Davids answer to the Lord, till the end of the three dayes appointed v. 12. It is further added 2 Sam. 24.15. that there died of the people, even from Dan to Beersheba, i. e. from one end of the land to the other. See v.2. Hereby is verified the extent of the threatning, v.12. throughout all the coasts of I frael.

V.15. And God fent an Angel unto Jerusalem to destroy it] This was the Angel mentioned, v. 12. namely, the Pestilence. Though the commandment for numbring the people were given in Jetufalem, yet the execution of that command in Jerusalem was put off to the last, v.4. And in Jesusalem was the Ark of Gods Covenant, ch. 15. 29, and there David humbled himself, v. 8. The execution therefore of the judgment on Jerusalem was also put off to the laft.

The reason why the Angel here stood, is, because the Lord intended this threshing-floor for the place of his holy service, v.18.28. 2 Chr. 3.1.

V.16 And David lift up his eyes, and faw the Angel of the Lord] It feemeth the messenger whom God fent to destroy Israel appeared in a visible shape; else how could David see him with the eves of his body ? and it is probable that he appeared like a man, as Angels at other times used to do, Gen. 19.1,5. V.19. And David went up at the faying of Gad] Or, according to the faying of Gad. David was as conficionable in observing the direction, as Gad was in delivering it. For he went up as the

direction as a man and the Lord of the Lord of the Man Gad who thus space; and he space by watrant from the Lord; with power and authority, as from the Lord; and that very meffage which he had received from the Lord : All thefe are implied under this phrafe, In the name of the Lord,

But on a sudden they saw it, which made it the more perrible unto them: and thereupon they all hid themselves, Prov. 22.3.

Now Ornan was stretching wheat] Ornan had been a King, a Sam, 24.23, but being subdued and brought under by David, he was content to perform a mean subjects part, and thresh his wheat; or at least the was there overleeing his sons while they did it. It is added 2 Sam. 24.23. All thefe things did Araunah, as a Kine, give unto the King : and Araunah faid unto the King, The Lord the God accept thee, In the former part of which verse it is implied that Argunah was a King! For that particle of resemblance, as, is not in the Hebrew; but it is said, Araunah a King gave. And he might be King of those Jebustes that held the Fort of Zion, ch. 1 1.4,5, and after the taking of it become a subject unto David, and by conversing among the Israelites turn Proselyte, and thereupon freely enjoy a possession among them. And fearing God in truth of heart, he might love and honour David, yea, and all Ifrael too, and be ready to premote the worthip of God in what he could, and to do what lay in his power for averring his wrath. Yet I will not deny but the epithet King may here be applied unto him in regard of his Royal disposition, and thus the particle as be fiely supplied. The last clause of that verse, The Lord thy God accept thee, giveth further evidence, that both fear of Cod and also faith in God possessed the soul of this man! And in the weth that he carriefly defired the prefervation of David, and of the remnant of lirael, as well as his own; and that he believed the prefervation of them all depended upon Gods gradious acceptation of Davids offering, which was a type of Christ. He faith of the Lord, in relation to David, thy God, because he knew that David was a faithful servant of the Lord, and that the Lord was in fpecial manner the God of Ifrael? yea further; be-caule he h infelf was a stranger by birth, though now incorpora-ted into the Church, he saith, thy God. Araunah was a fign of the calling of the Gentiles; that God we'd be Worthipped where they were, as he was worthipped in the threshing-floor of Araunah; and that, as Afaunah did, they would offer what they had to the fervice of God,

V.24. And King David faid to O nan, Nay] David would not receive so great ag ft freely at the hand of Ornan, because being a great and wealthy King, he could better pay for it then Ornan part with it for nothing. Besides, he would not render services, and offer sacrifices to God upon another mans cost, left such offerings should rather be accounted his that gave the things to be offered, then his that offered the same. It may be also that David was not willing to be beholding to Ornan for so great a courteste.

Many make two kinds of Shekels; one facred, the other common. The facred was as much more as the common, and is for the most part meant in Scripture. The Shekel contained two Bekahs, Exod. 38.26. and weighed three hundred and twenty barley-corns, i.e. half an ounce of Troy-weight; and was worth two shillings and fix pence. Now the Talent contained three thousand shekels, as may be collected the Talent contained three troutand thexets, as may of collected from Ex. 38.25,26. where fix hundred thousand and three thousand and five hundred and fifty men being taxed by the poll at a bekah or half-shekel for a man, the whole summe of the tax was an hundred talents and a thousand seven, hundred threescore, and fifteen thekels. A shekel then being half an ounce, three thousand shekels of silver amount to three hundred seventy six pound sterhing at the diffing the ounce, which is the value of a ralent in filver. Now the Flebrews valuing gold at ten times, the rate of filver, a ralent of your arrangement of your difficult was worth three thouland feven hundred and fifty pounds: which proportion of ten to one is evident in this verse: The hundred thousand talents: of gold and the thousand thousand talents of silver are ten for one, and, both of one value, namely, three hundred feventy five millions, or three value, namely, three hundred leventy hve millions, or three hundred feevity five times a houland thoulands pounds. And both finns of filver and gold together, amount to fixen hundred and fifty millions. Verf.1 Concerning the divisions: This was the third kind of di-of the porters! The notation of a Porter in Hebrew, Greek, Laof in patter! I ne notation or a rotter in recover, Greek, La-tine and English, befides other languages, is steen from a deor, or gate! And the phrase used implicit that they were for the gater. Now there being many gates appertaining to the Temple, Poster, and several Courte, these the Porters were to shur and open at feasonable times. They were also to wair and watch at the gates, feafonable times. They were allo to wait and watch at the gate, to keep out all unclean perfons and things, that nothing might enter of be brought in but fuch as by Law might. See a Chr. 13, 43,5619. & 35.15. They were likewife to keep peace and to prevent unmults; and in cafe any were, to thruth the tunultuous perovent unmults; and in cafe any were, to though the think they control to the courts of Gods houfe. Porters also had the chagge. of the treasures of the house of the Lord, v. 20. Their work was a work of great industry and diligence, and therefore they had

Because they were places for gathering together and laying up the treasures and utensils of the house of God, and also for men to assemble ble together in. This phrase is diversly taken by Expositors. Some take it for a Treasury, where the treasures of the Temple were laid Take it for a trajuny where the transfer of the things were a things when a true up. To this they are the rather induced, because it is faid, 2 Chr. 25.24, that all the gold and fliver welfels apprehaining to the house of God were with Obed-Edon, i. e. under the keeping and charge of this pollerity. Others take it for a Convocation-house, where the chief Senators of the Kingdom, or chief Governours of the house of God, used to meet together to consult about publick affairs. For this fense Neh. 12. 27, is noted, where it is faid that Porters were beeping the ward at the thresholds of the gates. The word Aluppim is there translated thresholds; but in the margin, treasuries, or affemblies. Many understand such assemblies as were before spoken of: And such used to be at the gates of places. See 2 King. 10.8. Such a word is put for affemblies, Eccl. 12, 11. And the Verb, whence the Noun is derived, is put for gathering men together, Num. 11. 16. 2 Sam. 6.1. Gen. 49. 1. Our Englifh translators take it for a proper name, and so translate it A-

fuppim.
V.16. To Shuppim and Holah] We read of a Benjamire called Shuppin, ch.7.12,15, but we find not this name ellewhere given to a Levice, Some take Shuppin in this place for the farher of Hofah ; others, for his brother, and conceive that the families were united in one, and in that respect onely one lot given to them

mild the gate Shallecheth] This word taken for the name of a place is no where else used in Scripture. It signifieth a casting out; and it is taken for a gate out of which they cast or carried away all manner of rubbift, sweepings, ashes, and other foyl that was not fit to remain in the house or courts of the Lord. Some hold this gate was distinct from that which is before faid to be Westward. See v.18.

by the castly of the going up] The Temple being on the side of an hill, they went up to it: And at this gate there was a fair caught, by which not onely passengers, but also such that of the things as were brought in or carried out of the Temple, did pass up and down. And in this fense it may be called the causey of going up. There is mention made of a causey, I King. 10.5. & 2 Chron. 9.4. which in both places is translated an aftent: But that was from the Kings house towards one of the fore-gates of the Temple: so as this causey cannot be thought to be that. There is another causey mentioned 2 King, 12.20. and translated Silla. That and this may imply one and the same common-way.

two and two] Some expound this of waiting in course, two one day, two another. Others, that two out of those that waited at the North and South-gates, were taken to wait here. Or rather it may be taken, that two waited without, and two within ; fo as there might be as many at this Western gate as at the North, or South-gate. Or, if there were two gates Westward, as some hold, ver. 16. then two might wait at one, and two at the

V.18. And Parbar Westward] Some take this to be another gate then that which is called Shallecheth, V. 16. Others take the word appellatively, for a place where fundry things belonging to the Temple were laid up. It is a Chaldee word, and compounded, and fignifieth the outward part; and thus it may well agree to that which was before spoken of the gate Shallecheth, being set West-

For make those Porters to be as many as the Singers were, namely, four and twenty courses of them, and twelve in a courfe, they amount onely to two hundred four thouland and eight, as ch. 25.7. But there is mention made of four thouland Porters, ch. 23.5. So as there must be many more then those four and twenty courses; among which these that follow are to be reckoned.

on that day with great gladness: See v.9. Nothing works greater joy in a mans heart then duties of piety z-alously performed, and they made Solomon the son of David King the second time! This questionlesse hath relation to 1 Kings 1,38,39. For then was So-lomon solemnly proclaimed King. In reference to that this is stiled the fecond time. That first making of Solomon King was on a fidden, by reason of Adonijahs conspiracy, and to suppresse that saction. Neither can it be thought that the Israelites assembled from all parts unto that solemnization, which was so hastily done: onely all that were then in Jerusalem and heard of what oney and that were then in Jermanem and neard of what was done gathered themselves together, and gave their acclamations, t King.1.39,40. But at this solemnity they were affembled from all the tribes of Israel, ch. 18. 1. Whether this were in Davids dayes is questionable. They that think so ga-ther their conjecture from the words immediately going before in this and the former verses, and also from the mention of Davids death after this act, v.26. But because this solemnity of Solomons being made King was many wayes like the other, especially in re-spect of sacrifices and feasting, it was not unfit to joyn them toge-ther. They which hold this inauguration was after Davids death, produce these arguments; That Zidob was made Priesl, that So-lomon six on the throne instead of David, and that all the sons of Da-vid submitted themselves to Solomon.

ANNOTATIONS

On the fecond Book of the

CHRONICLES.

THE ARGUMENT.

THE Book contained an Hiftory of four hundred seventy two years, from the beginning of Selamons reign to the Jews return from Captivity. It registreth the state of the Kingdome of Judah under nineteen Kings of Davids posterity, and Athalia the Usarper. And sometimes the affaires of the Kingdome of Ifrael, wherein the two Kingdomes had to do one With another, are intermingled. See the Notes on the Title of the first Book of the Chronocles.

And it came to past that in the fifth year of Rehoboam] Three years Rehoboam and his subjects walked in the way of David, ch. 11.17. in the fourth year they revolted from the law of the Lord, whereby they provoked his wrath against them. and my wrath shall not be poured out upon Jerusalem by the hand of shilbak God would not fuffer this enemy utterly to deftroy Jerufalem, as he threatned Deut. 28.62. and executed ch. 36.17, &c. The metaphor of pouring out wrath is taken for the executing of full vengeance, no part thereof being kept in. The utter destruction of the Jews by the Babylonians is fet forth under this phrase of pouring out god wards, chi, 321, 325. So weread of pouring out god wards, ch, 321, 325. So weread of pouring out god god fury, Ezck. 7.8. his indignation, Ezck. 1131, 184 fury of his tanger, 18in. 4.2. 3, and his ferce anger, Lam., 411, and of pouring out a cutf. Dan. 9.11. This is further for out by another control of the c of pouring out a carfe, Dan. 9.11. This is further let out by another metaphor, of a Vial full of wrath. Such a vial is faid to be poured out when there is nothing left in it. Commonly the dregs of liquour lie in the bottoms of vessels: therefore when they will show that all is poured out they use to say, the dregs are powed out. Thus mention is made of the dregs of the cup of Gods fury, Ila. 51.

According to the first reading this may be the sense, Notwithstanding all the evil that Shishak had done, the flate of Judah continued as before; they enjoyed their liberty of ferving God, the benefit of their own laws, with peace & prosperity. According to the other reading this may be the fense; Gods Ordinances were duly observed, judgement and justice was executed. and there were many of the Princes and people in whom good things were found, as is faid of Jeroboams son, 1 King. 14. 13. Befides, there was in Judah the law of God, the feals of his Covenant, the ministery of his Prophets, Priests and Levites, ordinary and extraordinary facrifices, and many perfons that had not conformed to the fins of the Kingdom: These and many other like were the good things in Judah.

24. In this chapter is set down the short reign and miserable end of Ahaziah, and the evil consequence thereof; namely, Athaliah, a woman and a stranger, to be an usurper of the Crown, v. 10.

V.z. Fourty and two years old was Ahaziah when he began to reign This place feemeth to contradict two others, one whereof faith that Jehoram, the father of this Ahaziah, was thirty and two years old when he began to rgign, and that he reigned eight years, ch. 21.5. the other, that this very Abaqiab west two and twenty years old when the other, that this very Abaqiab west two and twenty years old when the began to reign, 2 King 8.26. By the former, Ahaziah's father was but fourty years old when he died, how then could his fon be two and fourty) can a fon be e'der then his father at the same time? By the latter, one and the same man should be two and twenty and two and fourty years old at once. To reconcile these places some fay that Jehoram being two and thirty years old when he began to reign, lived eight and twenty after that ; of which, Jehoram himfelt reigned but eight, and Ahaziah governed the Kingdom twenty years in his fathers life-time; fo as they make Ahaziah two and twenty years old when he began to govern as Viceroy, and two and fourty when he began to reign alone after his fathers death. But besides that there is no ground of Scripture for this reconciliation, it croffeth all the circumftances of the hiftory; in parti-

And this may the better be born, because the Hebrew thus expressent it, A. On of fourty and two years was Abaziab in his reigning. I will not deny but that Hebrailin is oft used of a Kings age when he began to reign, but it may also be taken of the continuance of a flock. To make this interpretation the more clear from putting the last cloude of this verse in the beginning (which is called a Trajection) thus read it with part of the former verle, So Abariab the fon of Jeboram king of, Judah reigned : his mothers name allo was Athaliah the dauchter of Omri. The Title.

Exa.] This is the Title of the Book following . It is called Exa, by reason of the Pen-man thereof, whole name was Ezra, Ezra, according to the notation thereof, fignifieth an larlper. And he well answered his name; for he was a great helper of the Church of God: and that in a mon feafonable time, when the Church was in great efficient on. Of this man fee more, Ezra 7.1,6, &c. Sundry Books carry the name of the Pen-men thereof, as mon or the Prophets. Belides, a great part of this Book containeth memorable acts of Ezra; and that from the beginning of the feventh chapter to the end of the book. Sundry books have their name or title from fuch a ground. to Johns containeth the Acts of Johna, Judges of Judges, Ruth of Ruth, Nehemish of Nehemish, Ezrais inpposed to be the Pen-man of lundry other books of facred Scripture; as of the two books of Chromcles, (See the last note on the life yerfe of the second book of Chromicles,) of Nehemish, which by many is called the second book of Ezra, and of last yerfe of the fectoral books of Larva, and of the second books of Larva, and the second Malachi; for by realon of the time wherein that Prophecy was written, and of the matter contained therein, Malachi is supposed to be Ezra; for Malachi may be taken appellatively for a Meffenger.

Sometimes more are set down in one place then in the di-ther; and sometimes sewer. For different names, it is strequent in Scripture to give two or three names to one and the lamb person. See a Chron, 3,1315. For the difference in number, these may be the reasons thereof. First, some earner to Jerusalem which had not fet down their names in Babylon; they being added to the other increased their number. See ver. 5,6. Others dea to the other increased their humber. See verifye, butters that had fet down their names to go to Fernfalem, either went not, or dyed in the way; and in that respect made the number lift fet down the lefte. Thus in a Sam, it, it, j, j, t, there are but eleven sons of David set down to be born in Jerusalem; whereas in 1 Chron 3.5,6,7,8. there are thirteen reckoned up; for two of them dyed in their infancy, or at least before they had iffue; and therefore are not reckoned up in that catalogue which is fet down 2 Sam. 5.14, &c. In th's catalogue the number of those that fet down their names in Babylon is regiftred : but in Neh. 7. 7, &c. the number of those that came to Jerusalem is reckoned up. the children of the province] They are called children of the province, because they were such as belonged to Judah which at that time was made a province. Such a country is called a pro-vince, as being subdued by an enemy is kept under tribute; and in vince, as being inoqued by an enemy is kept under tribute; and in subjection to another supreme governour. Thus is Judah called a province, ch. 5.8. Nch. 1.3. Acts 25.1. Some conceive them to be called children of the province, because they had a long time lived as captives in Babylon, whereas others were scattered up and down in other countries. Hwo old must then these needs be? We must suppose them to be teny years old at least at the sacking of Jerusalem, that could remember the old at least at the lacking of Jerulatem, that could remember the glory and beauty of a building to many years after. Now there were threefcore years between the defruction of the first Temple and laying the foundation of the second; see ch. 3.12. To these must be added an hundred and eight years, to the beginning of Darius Nothus his reign, when the walls of the Temple were reared up, and all that time wherein it was in building. All these joyned together cannot be less then an hundred and sourcore years : And of this age must they be whom the Propher speakyear; and or unrage must usey be whom one repopee, practice, who it for this beat; in bet firl flown you but in fare this beat; in bet firl flown, and how do you fet it now? and of his sons Darius (firnamed Nothus because he was basely born) who was the first King from Cyrus, and reigned about an hundred years after him, had divers sons that dyed one after another, but yet one remained as heir to succeed him. This was Artaxerxes Mnemon, who was another then that Artaxerxes which is mentioned ch.4.7. That this fon of his might through Gods mercy be preserved unto him, he takes order that sacrifices should be offered up for him. But whereas it is faid in the plural number, his fons, it is replyed, that he might mean not onely the fon then living, but such as he might have afterwards. This argument is brought to prove that Darius Norhus is here meant. This circum-flance of the death of former children is not sufficient to prove such , a point; for a man may be desirous to have facrifice offered up for a point; for a man may be delirous to have lacrifice offered up to the prefervation of his children, though he had loft none of them, but they were all living with him; which was a fufficient ground for him to use means of obtaining Gods bleffing on them.

former was called Longiminus; the latter, Maemon; the former made a decree to cause the building of the Temple to cease, ch. 4. 19,21. If he therefore be here meant, this commandement must be meant of some charge that he gave in the latter end of his reign which was not put in execution till Darius his time. V.s. For they have taken of their daughters] Namely, into marriage; which was directly against the law of God, Deut. 7.3. This is meant of those who were in Judah and Jerusalem before Ezra came thither. Whether they took them before they came out of Babylon, or after they were fetled in Judah and Jerusalem, is not expressed. Some might take women of cursed nations to be their wives while they were in Babylon: for Nebuchadnezzar carried of those nations into captivity, as well as of the Jewes, Jerem. 25.9,15, &c. and 27.3,&c. So as the Ifraelites might take of their daughters to be their wives. Others after they came to Judah might take wives out of those nations that were about them. We may further gather from that which the Prophet Malachi (who lived after the captivity) complaineth of, that many of them pur away their former wives which were Uraelites, and in their room took wives of these nations. For thus he saith, Judah hath profaned the holineffe of the Lord rehich he loved, and bath married the daughter the continge of the Lord volute be towad, and hair material too analysis of all linage good. Whereby it came to passthat more notice was taken thereof, and that the report of it was further spread. V.2. And Sheehaniah the son of Jehiel, one of the sons of Elam] This description diftinguisheth this Sheehaniah from others of that name, not onely before the captivity but also after : for there were two of that name that came with Ezra, chap. 8.3,5. and there was a third called the fon of Arah, who was father in law to Tobiah an enemy of the Jewes, Neh. 6.17,18. There was also one of that name that came to Jerusalem with Zerubbabel, Neh. 12.3. This Shechaniah might the rather come to Ezra at this time in this case, because he was a Prieft, a prudent man, and father of Jehiel, who was one of those that had committed that great fin ; as is evident by comparing ver. 18. and 26. together.

yet now there is hope in I frael concerning this finne] The hope that here he intends was in two respects. First, of the peoples repentance. Secondly, of Gods mercy in pardoning that fin. And this he putteth Ezra in mind of, both to move him to moderate his paffion, and alfo to ftir him up to use meanes for redreffing this fin.

V.3. Now therefore let us make a covenant with our God] Because the work intended about putting away their wives could not be fuddenly accomplished; to give affurance that with all convenient speed it should be done, he gives advice to bind them all by a so-lemn covenant thereunto. For a covenant tieth men so fast to God, as if there be any fear of God in their hearts they will not fail to doe to their uttermost what they have covenanted. Pious governours have used by this meanes to tye their people more firmly unto duty. See 2 King. 11.4.

We find many prohibitions against taking strange wives; but no expresse law for putting them away: onely the confequence of the law, which (aith, thou shalt not make marriages with them, Deut. 7.3. im plyeth, that fuch strange wives as were married by any of the peo-ple of God should be put away; and so much is consistened by this practice, done ver. 11. by the command of Ezra, who was a ready Scribe in the law of Moles, chap. 7.6. The like also was done af-ter shis on a day of humiliation, Nch. 9.2. And this is one of those things which good Nehemiah reckoned up to be remembred for, Neh. 13.30,31. This practife was proper to the Jewes. For Chriftians to leparate from a wife or an husband in case of religion is unlawfull. If any brother hath a wife that believeth nor, and the be pleased to dwell with him, let him not put her away, I Cor.7.12.

and such as are born of them Namely, of those strange wives, Such children were not utterly to be cast out and lest (as we say) to the wide world, without all meanes of livelyhood, and fo cast out of the Kingdome; but they were not to be reputed as free-born fons, in the number of Gods people; nor were they to have any right to an inheritance or childs portion. But questionlesse they were to be maintained by their father; and he ought to have a care to breed them up in the true religion, that fo they might prove Profelytes and worthippers of the true God. Besides, this is to be taken of the children of such wives as retained their heathenish opinion. For if they were converted to the true faith, neither mother nor children were to be port away; witnesse the case of Rahab and of her son Boaz, as also of Ruth and her son Obed,

ANNOTATIONS

On the Book of

NEHEM

THE ARGUMENT.

TN this Book the continuance of Gods enercy towards the Jews after their captivity is fet down; and that by raifing up a 1 . hird instrument of procuring their good. The first was Zerubbabel. The second Ezra. The third this Mehemiah. Of the diffinit good which each of these did, fee the Argument on Ezra. This Nehemiah continued in Persia after two returns of the few to ferufalem : One under Zerubbabel, Ezra 2.2. The other under Ezra, ch.8.1, &c. He was a great officer under Artuxerxes King of Persia, and much savenred by him, ch. 1.6. He used that authority and savenr to the best advantage that he could for the Church of God. Mention is made of two returns of his from Persis to Jerusalem. One was in the twentiesh year of Artaxer xes, ch.2.1. and that was for twelve years, ch.5.14. In that time, First, he built up the walls of ferusalem, ch. 3.1, &c. & 6 1. Secondly, be fetled the Common-wealth, and therein redressed many grisvances, ch. 5. 1, &c. Thirdly, He juyned with Ez a in reforming Religion, ch. 8.1, &c. And for the better establishing thereof, brought the people to renew their Covenant with God, ch. 10. 1, &c. The other return of Nebemiah to Jerufalim was within a year after he came to Persia : For in the same year that he came back to Artaxerxes King of Persia, be obtained leave to go again to fe rufalim; which was the two and thirtieth year of Areaxerxes, ch. 13.6, 7. And it is supposed that he tarried there at the second resurn, to long as the Persian Monarchy continued, which might be about fourly two or sourly three years: So as the whole tions of his being at firefalem from first to last was about fifty five years. His first coming to Jerusalem was thirteen years after Ezra's fift coming thither : For Ezra came in the seventh year of Artaket xes, Ezr. 7.8. But Nehemiah in the twentieth of the fame King, Neh.2.1.

V.I. A Nd it came to pafe in the moneth Nifan INifan is the first moneth according to the Hebrew account, Efth. 3.7. beginning at the equinoctial, about the eleventh of our March. It is also called Abib, Exod. 12.2. & 13.4. Some count this an Hebrew name, and derive it from DII Nos, which fignifiest to fite, and faythis moneth was called Nifas in memorial of Itracls flight out of Egypt. But most take it to be a Chaldee name. And according so the Chaldeans and Perfians accompt it was the feventh month : For they began the year at the Autumnal equinoctial, and might call that month Nifan, because the cheerful summer-dayes were now fled and gone. this is nothing elfe but forrow of heart] There being no externall cause of such sadnesse of face, the King might well infer that it was from an inward cause, namely grief of heart.

Then I was very fore afraid] This was a natural fear, and might arile from a fueldain apprehension of the greatness of the person that fpake unto him; or from a conceit that the King might futhat fpake unto him; or from a content that the King, might in-freed from teacherous practice inhim, or otherwise mil-interpret that sad manner of coming into his presence; or from the compa-ny that was then present. For the Queen then sitting by him, there must need by Nobles and others attending them. V.4. Then to hing faid unto me, For what doft thou make requift?]
Here is manifelted the good event that followed upon his clear declaration of the cause of his grief; namely, that the King would be ready to afford means for redefling of that which caused it.

And to that end tends this question.

So I prayed to the God of beaven See ch.1.4. He prayed not by turning aside into some secret place, or by uttering any words, but by lifting up his heart to God. This is a kind of circulation of pirit, when a man cafteth up a fuddain defire. Ni hemish defire might be, that God would direct him in ordering his petition to the King, and incline the Kingsheart to grant it. He expre-feth as much ch. I. II. This ejaculation of the heart may be as fervent and prevalent as a folemn prayer uttered with the mouth; Wingis that of Mofes, Evol. 14.15. to which God made this as-fiver, who craft thou auto me? yet no words of a prayer wrenten uttered by Mofes. This frequently and heartly used argusta a heavenly mind and an holy familiarity with God. This is one my whereby we may pray alway, continually, without ceafing, even by a readiness of heart to pray at all times, in all places, on all ocasions, when we are alone, in company, in conference, reading, flud-ing, working, or doing any other lawful thing. Thus mailt thou,

We read that Ez.a was ashamed to require such a thing of the King, because God was able to pro-tee them, Ezra 8, 22. But there was a particular occasion that mowed Ezra to forbear that request at that time, namely a discourse that he had had with the King about Gods protection of his, and providence in keeping them late from their enemies plots. Nehemigh had not, in any fuch respect engaged himself to the King; therefore their cafes are different. Certainly a man may with confidence call upon God for his protection, and yet in prudence use humane warrantable helps: For such means rightly used are as the numane warrancine neight for nout interacting they are as a set the hands of Gods providence whereby he bringerh matters to palle. CHAP, III.

Ver. t. Hen Eliashib the high Priest rose up] In this chapter is set down the building of the walls of Jerusalem, together with the parties that built their diftinct portions, and the or-der and manner of building the fame. This Eliashib was grandchild of that Jeshua who came with Zerubbabel from Babylon,

with his brethren the Priefts | Priefts were brethren to the high Priest in relation to Aaron the father of them all, and in relation to their common function, whereby they were diftinguished from Levires. Besides, these Priests might be of the same family where-

of Eliashib was, and in that respect called his brethren, and they built The wall of the city was so utterly ruined, as it might well be faid to be built again.

the specy-gate] So called, because by it was the market-place where sheep were sold, both for sacrifices, and also for common uses. Joh. . 2. or because theep were through that gate brought into the city. This was the first gate of the city that was built,

they fantlified it] Some understand this of an external beautifying and adorning thereof; others, of a religious confecrating and dedicating it to God by prayer and fuch rites as were then warranted. This gate is here fingly noted to be fancified: I. because it was as the first fruits of all the rest, and so in & with it all the other gates and parts of the wall were fanctified. 2. because it was the special work of the Priest, and they would have a special care of fanctifying their own work. 3. because it was the nearest gare to the Tennile, and to the market-place; by it brasts for facrifice were brought. The pon called Bethefda, Joh. 5.2, where theep were

whereby he that fiff stepped into that pool was made whole of whatfo-ever diffest he had, Joh, 5,4, then fift began.

And set up the doors of is! Every gate had leaves of doors apper-taining to it, that so it might be thut in the night-time for the berter fecurity of the city, and also at other times, to keep out fuch persons and things as were not fit to be in the city at such and such perions and things as were in the best of the arm mentiones, ch. 13, 19. Under fetting up the doors all things appertaining unto them, as hinges, locks and bars are comprised, v.3, even unto the tower.] This showeth that together with the gate

they built a part of the wall, even fo much as reached to the towers here mentioned.

of Meab] Meab fignifieth an bundred. Some take it for the proper name of the tower; of which we read not but here and che 12,39, others, appellatively, for a tower of an bundred, because in was an hundred cubits from the gate, or an hundred cubits high, or adorned with an hundred pinnacles, or had an hundred holes in it, one above another round about, out of which they might look out, and defery matters.

they fantlified it] This is repeated to thew that they did not onely fanctifie the gate, but also the walls and towers appertaining

unto the tower of Hananeel] This name was given to this tower in memorial of some man of great note and name. The sheep gate being on the West of the city, this tower was Northward from that gate. For fo the Jews went on in building the wall, from West to North, fo to the East, then to the South, and then to the West where they began. It was foretold before the captivity that the city should be built from this tower of Hananeel unto the gate of the corner. Jer. 31. 38. whereby it appears that this name was long before given to this tower. Zechariah, who lived about the time of building the Temple, m keth mention of it, Zech 14.10.
V.2. And next unto him] Or, at his hand. This Hebrailm fetteth

out such as were at the charge and took the care of building the wall, as if they had been workmen; one beginning to work where the other left.

builded the men of Jericho | These are called children of Jeriche Ezr. 2.34. because their predecessors had, generation after generation, dwelt in Tericho, and they themselves now dwelt there.

And next to them | This is the fame phrase that is used before, and may be taken in the same sense; yet some give this sense of it, that on the one side of the wall built the men of Jericho; on the other side

builded Zaccur the fon of Imri] We read no where else of this man: But by this it appeares that he was both pious and weal-

thy.

'3. But the fift-pate! This was the fecond gate of the city now built. As the fift was called the fifter-gate by reason of theep passing through it, and fold by it; to this is called the fifteen, because it was covared the Sea, and fish was brought into the city because it was covared the Sea, and fish was brought into the city. that way; and a fish-market might be near it. We read that men of Tyre brought fift into this city on Sabbath-dayes, and that to keep them out the gate of the city was shut : That was this fish gate, ch. 13.16,19. This was an ancient name of this gate, 2 Chr. 33.14.

did the fons of Haffenanh build No mention is elsewhere made of thisman; but he that had fons to do fuch a work must needs be a man of good efface, or elfe God wonderfully bleffed his fons, who also laid the beams thereof, and fet up the doo s thereof, the lock thereof, and the bars thereof] All these are here noted together because one man was at the cost of all. He might now prepare them all, but doors with their locks and bars were not fet up till the whole wall was finished, ch.6.1. & 7.1.

V.4. And next unto them | Heb, at their hand, See v.2. repaired] The fame thing is here meant that was in the former verses by the word builded. But this word repaired may here and in

the veries following be used, because the foundation of the wall within ground yet remained, and it may be also some part of the wall above ground,

Of this broad wall mention is made again ch. 12.38. It is thought it was at the Corner-gate. There is a double reading of the words: This in the text sheweth how far the sons of the Goldsmiths and of the Apothecaries repaired, namely to the Corner-gate, where the wall was broader then in other places, and in that respect called the broad wall. The other, which is in the margent, hath no reference to any particular persons; but saying they lest, implyeth that the wall was lest, and not repaired, unto the broad place; for it had not there been pulled down. It is supposed this was that part which Joath brake down from the gate of Ephraim to the Corner-gate, 2 Chr. 25,23, and which afterwards Uzziah built again, and made much stronger then before, 2 Chr. 26.9. And it may be the Babylonians having broken down the wall on both fides, and being now weary of their work, left this part standing.

In the Hebrew there is a double reading, one in the text, another in the margin, That in the text speaketh of Nehemiah in the first person. Here is not set down what he built, but it is supposed that he built the Palace, or a saire spacious house for judgement, where neount the raisec, or a taire spacious noute for Judgement, where all forts of people might meet together, and so much of the wall as passed all along by it. It is expressly faid that he himself continued in the work of the wall, ch. 3. 16. and that half of his servants wrough in the work, ch.4.16. But because it concerned himself, in modesty he here forbeareth to express what and how much he built. There is the fame reading, after me, v.31. By this it appeareth that Hananiah and the others named here, and Malchiah v-31. began to repair where Nchemiah left. Pfal. 51.1,9. In just indignation this holy man, stirred up with zeal of Gods glory, imprecates vengeance upon proud, scornful, implaca-ble enemies of God and his Church, And these imprecations are rather for exemplary punishments upon them then for their eternal candemnation. Yet I will not deny but that the Prophets, by that Divine Spirit wherewith they were affifted, might difcern some par-

fons to be utterly rejected of God. Imprecations of holy men fecorded in Scripture are tharp two-edged tools, not for every ones handling. When Christ Difciples would have commanded fite (as Elijah did, 2 king, 1.10.) to come down from heaven to continue the Samarians, he tolked them, and faid; Te how not of what spirit you are, Luke 9, 5453. Particular imprecations against what ipput you are, Luce 9,54,55. Particular imprecations against particular persons are not for every spirit, but for such extraordinary spirits as Prophets & Apostles had. Yet thus sar may every faithfull spirit tessifie his holy zeal in this kind of imprecation, by lan indessnite extending it against such as are indeed misch evous and itreconcilable enemies of the Church. Besides, though we may not concisate enemies or the Univers. Belides, though we may not make an imprecation against a particular perion, yet, against his instituteous practice we may. From all places whence ye shall return unto us, they will be upon you!

Or, that from all places you must return unto us. This is that intelligence which their Brethren gave them: The former reading implyeth that the enemies would in every place fet feours and spies, fo as there should be no escaping of the workmen from them. The Jewethat brought this intelligence speak as those that were in the city with Nehemiah and others that had the care of the city, and in that respect use this word us, as being of their number, and direct their speech to the workmen, intimating that when the workmen should upon any occasion come into the city, the enemies would surprise them, be it day or night. The latter reading implyeth that the workmen must be careful to come to them in the city when they leave their work for refreshing or rest, if they defire to be fafe; or otherwise the enemy would soon surprise them. Some thus interpret it, Take heed, and be matchful about all those places whereby the enemy maje im: to us.

[aving that every one put them off for washing] Or, every one went with his weapon for water. Here are two readings arising from the ambiguity of the Hebrew words. To be shileeo, which is translated putting off, fignifieth a meapon; and the word translated mast-ing fignifieth mater. Our Translators conceive that this last clause is added to thew, that notwithstanding they oft step in their clothes, yet they were careful of cleanlines; and therefore they used to put off their clothes so oft as need required to wash them. Or if by any occasion they had contracted any legal uncleannesse,

they would put off theis clothes to walh them, or to walh them- | titances had remained to them; they might out of the revenues felves, according to the Law, Levit. 14.8,9. & 15.16. & 22.6. The other reading makes this a diftinct clause by it felf, They went with their meanon for mater. They so feared the enemy as they durft not go out of the city, no not to setch water, without a meapon, or without armour. In this sense the case of the Jews here was like that Judg. 5.11, when the noise of archers was in the places of drawing water. Others that take the word Shilleco in this fense, underfland it of every ones providing himfelf with armour and food, pureing water for all manner of food.

dwelt at Jerufalem Voluntarily offered themselves there to

dwell. It is said ch. 7.4. that the city was large and great, but the people few therein. Therefore the Rulers and others hereafter mentioned, there dwelt, for the better fafety of the City, and for the better observing of Gods ordinances at the Temple.

the rest of the people asso cast lets to bring one of ten to dwell in Jeru-salem] Because they who voluntarily offered themselves were too few to replenish that large City, they ordered that every tenth man should dwell there: and to take away all thew of partiality, and to prevent murmiring, they cast lots, that so it might appear that God would have such and such to dwell at Jerusalem. For by casting lots they came to know the mind of God, Aft. 1.24,25,26 See 1 Chr. 6.61. & 24.5. There were but twenty two; here but twenty one, or twenty; yet there were twenty four courses appointed by David, I Chr. 24.7, &c. The reason why there were fewer courles after the captivity may be because there were not Priests enough to make up fo many courses as in Davids time. That which is noted Ezra 8.15. that Ezra found there none of the fons of Levi, importeth that there were but few of them when they were all gathered together.

Verf. 1. O Nthn day T the most immediate reference of this circumstance of cime is unto the day of dedicating the wall, the history whereof is in the former chapter. This very phrase is used ch. 12.43. On that day they offered facrifices; and on that day also, for the fanctifying of it, they might read the Law. Others make a more remote reference, namely to the reading of the Law on their great day of fast, when the feed of I farel separated themselves from all strangers, ch. 9.1, &cc. But the most Expositors refer this to the time of Nehemiahs fecond return to Jerusalem, See v.6,7. For this good Governour was as careful of reforming abuses about religion as of redressing grievances in the State Therefore at all due times, when he was at Jerusalem, he was careful to have the Law read.

[orever] This in the fullest extent is taken of such Ammonites and Moabites as are before not:d. Befides, this extent of time; having relation to the Law, is properly to be taken for so long as the politic of the Jews remained; so long this continued to be a law. Yea further, in regard of the civil priviledges of Gods people, Ammonites and Moabites were never to be made partakers of them. They were never to be admitted into any place of authority or command, never to be enrolled or incorporated into the Common-wealth of If ael, not to have any inheritance among them. THE ARGUMENT.

Both the Hebrew and must translators entitle this Book, ESTHER, in memory of that prudent and pious Queen who was a principal instrument of that good which in this Book is related to have been done to the Church of God. The particular passages of the History are these. I. Abasuerm, a great Monarch, made a sumptuous feast, sent for his Queen parameter payinger of one tage people in her royal apparel; but the refusing to come, by the advice of the Connejel be put her r april, to port our value and proper and respect to proper a value, to be a like Princes Haman, a combine be fofer his beart as be could deep her nothing, ch. 2, 5,7,8. V 1. The means of ebtaining this favour from the Lord was Fasting and Prayer, ch. 4.16,17. V 11. The effects following hereupon were follown rejecting and thanks giving for the profest, and an annual memory thereof for the Junes, together with that good which Merdecai further did goving for the prejent, and an annual memory intred for the lines, together mine together make activation for the stime of the highery was about twenty years. For in the third year of Abalanus Was the forementioned feafs, ch. 1.3. In his feventh year he married Either, ch. 2.16. In the swelfth year Haman plaints his mischievom plot against the lews, ch.3.7. Now be reigned two and twenty years, and all his reign was Mordeculin high estreem, and lought the good of his people, ch. 10.3. There is in this book an evidence of Gods over-ruling providing in many particulars; and earness prayer with fasting was made to God, and selemn praise given unto God, and exactly day of praising God ordained; yet throughout the whole Book not one sitle of God is once set down. The like is not to be found in any other book of Scripture, whether long or fort.

CHAP. I.

Qw it came to pass in the dayes of Ahasue-rus] Heb. Ahasuerosh. Of this name see Ezr.4.6. It was rather a title given to fer forth the dignity of the man then a proper name to distinguish him from others. Hence it is that there hath been fo many different opinions about him.

Some think he was Aftyages the grandfather of Cyrus, King of the Medes, who lived in the time that the Jews remained captives in Babylon, But it cannot be imagined that an hundred and seven and twenty provinces should be under his jurisdiction, the Baby-lonish Monarchy being then in its height. There is never a King of Perfia after Cyrus but fome or other have taken him to be this Ahasuerus. The most probable opinion is that he was that Monarch whom Historians call Xerxes, fon to that Darius who fucceded the Magi and married Cytus his daughter. The wife of this man is by heather writers named Amelria, which may be taken from Efther. If fo, then without all question Xerxes was this Ahastierus. This Xerxes by reason of the many conquests he obtained, was called The terrour of the Grecians. He reigned two and

twenty years, as some report; or but twenty, as others, this is Abassums with reigned from India even unto Ethiopia.

Though former Kings of the Medes and Persians had conquered many countreys, yet none of them subdued Ethiopia. Xerxes was the first that brought it into a Province; in which respect Ahasuenis here may well be supposed to be Xeixes.

over an hundred and seven and twenty provinces] We read that Darius King of the Medes, who vanquished Belshazzar, appointed an hundred and twenty Governours, which should rule over the whole hingdome, Dan. 6.1. whence it is infer'd that he had so many provinces under him, every Governour having the charge of a

province. But in this mans time feven provinces more were brought under. V. 2. That in those dayes] This hath reference to the first words

How much displaced and offended the Kingwas at Vahith her refuling to come to him, is noted that it a but time affiwage the the heat of wrath. It was four years after he had pur away Vashti before he took another wife, to make her Queen in Vashti her stead. For the feast was in his third year, ch. 1.3. and Esther was made Queen in his feventh, v. 16,17. But his wrath might be appealed within a few weeks or moneths after he had put Vashti away; and the rest of the time he fpent in feeking out, and fitting and preparing Vitgins to come unto him; for every virgin was twelve moneths in

the fon of Anmedath the Agagite] We find the name Agag twice given to the King of Amalek, once indefinitely, Numb. 24.7, and again particularly, to a special man, seven times in one chapters I Sam. 15.8,9,20,32,33. Some infer out of Numb. 24.7, that it was a name common to the Kings of the Amalekies, as Phagash was to the Kings of Egypt, and Abimelech to the Kings of the Philitims.
See I King 2.39. Hence it is gathered that this Haman was of the royal flock of the Amalekites, who descended from Esau, Gen. 36. 4,12. I Chr. 1.34,35,36. and were ancient and bitter, enemies of the Ifraelites. They might be perplexed for fear of some commotions and tumults that might arise, or by reason of some loss that might accrue unto them by rooting out all the Iews, or in compassion that so many for no just cause should be destroyed. But especially this is to be taken of the Tews in Shufhan, and of their friends. See ch.8.15.

He Argument of any Book is the the Crystall to a Watch, or a pure translatent Tiffany cast over rich Embroyderiets He Argument of any pook is the them, but fet them off, and instead of hiding, beautife. It might be wished, that The could give which as continue, and factor transparency to this Book; then which men (in all the holy folume) had more needed a shining Lamborn at the Porch is an lighten which self, and the Reader; (or , though most excellent and elirous thing to be contained in it, yet they self was to parake the fame portion with their subjective of its interest when the contained in it, yet they self was to parake the fame portion with their subjective subject (as the prosperity was) clowded often with much darknesse and obscurity: And that, not only in those things when we of self moment, and edification, (viz. the Time, and Place, and Penman, &c.) but in points of higher Doltrine, and Concernment; which (whether it be from their own inborne sublimity, or the Originary ambiguities and uncertainties of the hard language which presents them) we can but peep into, and consesture at, rather then Descern, being forbidden clearer apprehensions, by that thick and large vaile which is spread every where upon them: And this hath prevailed so far upon some Judgemini; that they have suspected all for a meer parable, and will believe Job to have been no other; then, what he sayes the life of Man is, a sancy and shadow: But I shall desire a great Prophet, and Apostle, to resute this Insidelity: in the mouth Job 14-22 of two fuch wirnesses (hadwe no further evidence) let the Truth and Honour of this Scripture be establish for ever: nei-Bzck, 14, of two sherr witnesses to an ever the control of the sherr was a sound of the sherr of whom would have proposed our throw as an Example of brighted hollings, and patience, if he had been no more is then a dim Filtion, nor have saught uithe noblest Alts and duties of Religion by things imaginary, and which never Jams, 10.

were of The Book is observed indeed to be a fort of holy Pooms, but yet not a Fable; and shough we cannot expressely conclude when or by whom it was written, though our Maps cannot shew us what Uzwas, or where situate, yet cannot this Seripture of Job be rejected, until Atheisme grow as desperate, as his wife was, and resolve with her to cutic God, and dic. For the Partition, or Method of the Book, no Invention can perform that better then the unfallible Spirit of God bath, who divides it (by S. James) into the patience of Job, and the Event or Catafrophe of it: And so makes it a Diviner kind of Tragi-Comedy; where many Griefs and miferies determine fiveetly in greater Joy and Mercy. This Joy is advanced by the black shadowings of sorrow, and that sorrow is heightened by many sad and dolefull Aggravations: whilest not onely what he is deprived of, oppresses him, but even what he enjoyer, and his very comforters are as miserable as his losses. So ir he assaulted on all hands, and had not stood possibly in the Combat, but that he was imprognably armed at his loffet, 20150e affanticum air tonnes, mon mon pour populy in the Commission of the miles maying many armea with hisflamm, and Righten fuffer, and Artenece. The second breaks forth, not more in the faithful Charatter and Testimony of Gods 6,7,8,8c. own Spirit, then in his own humble acknowledgements, and Actions: which (let his uncharitable Judges censure them. one sport from no its own aumore accounting and accounts: when the sum ancount name pages conjunctioned for objectively on the long parfect scientify in this, Chipage that they breathe and long after a better liberty and parity, which in themselves they had not, and disclaiming their own 1,526, presents and long after a better liberty and parity, which in themselves they had not, and disclaiming their own 1,526, presents and the liberty and parity, which in themselves they had not, and disclaiming their own 1,526, the life of his Redeemer) that after a sport corruption in the Grave, his destroyed skin and Eless sum of the life of his Redeemer) that after a sport corruption in the Grave, his destroyed skin and Eless such as the renewed, and the state of the state of the life of his Redeemer) that after a sport corruption in the Grave, his destroyed skin and Eless such as the control of the state of the thole very Eyes which had been eaten out by Worms, should in heaven see God for ever: which belief and knowledge of Christ, though weak and dimme, yet prove Job, whatever Country-man he was, to have been a true I fractite, and a son of Abraham, though a Gentile, nay an Edomite: It is not the letter gives this descent, but the Spirit; nor does Circumcifion, or things outward make a Jew, (that is, atrue Member of the Church,) but the inward praises of the Heart : In these Jobexcelled many that call Abraham Father, having an unextinguish light of the true Messiah glimmering in his fulse, which was more admirable in him, becasse his Day-star was not relieve and yet us such a Day-star to us, that had we no more to condemn Atheisme, and U nbelief, and Idolatry, and Hypocrisse, and Blindnesse, there this one History, we should get be left unexcusable, there being so much in it to instruct us concerning both the Creator, and the Creator, bleffed Nature, Attributes, Providence, and Service of him, and the empty mocking frailty, and unprofitablenesse of this Andthenlast, his Patience, which is the most renowned Grace of all; this stands open and aloft in every Chapter, and station in the first Mounteen and Copy of Devine foreitude, and Constancy, that the Church of God hath record-tal. This patience is fo much the more honourable, because his former Condition was solarge and prosperous, because his Anouelage and Grounds were darker, than those which have discoveries have belief to Christians with; and because his Trialis and Concussions were more violent. He was a Buttexposed to all Arrower, and both Heaven, and Earth, and the for terribly at him: He was afflicted by God himfelf, by Men, and by Devils. He was not spared in any comfort shat hu-mans life enjoyeth, but stript utterly naked; both Friend and Foe were cruell to him; and a generall conspiracy and sulresc of misery beleaquered, and wounded him. No wonder if sometimes natural instrmity betrayed it self, and that we find some left faithfull, and temerary, and excessive Complaints bursting from him. In such united perturbations and formings, who can but pity his immoderation, his staggerings: and read those case laster but his his reagerings: and read those case laster but his his reagerings. fion? Notwithstanding, in the main he continued victorious, and not only wer sted reall difficulties, but verball: Those bitter crimination and alsersfions of his friends, be refuted as easily, as those from Satan; and after a strenuous and ve-binens dispute with them, God himself who sate in the Chair, and moderated, and was glorified by hims glorifies himself in declaring the unseen (but never unjust) end of his chastisements, and gives the triumph to his servant. To whom he restitutes a multiplied Felicity, increasing both his Friends and his Riches, and brought him off that tragicall and mournfull Theatre with far greater glory then he entred upon it: And so hath left us an example as well of his Goodnesse; as of his Power; and together hath taught us both our Calamity and Happinesse; That seeing the Patience of Job, and the End of the Lord in it, we might not murmure, when vifited, nor decide Gods secret favour by outward pressures; but believe furmly that none shall ever lose by honouring the Lord, and that we may continue children and beloved, even when most harpy corrected, and therefore account them happy, that suffer for his sake, and that no Joy is greater, than such

The word properly imports breaking out of bounds, and breaking through all things that hinder, so as it cannot be bejt in. In Scripture phrase it often fignifyes abundant encrease of living creatures; as Gen. 28, 14, 830.30,43. Exod. 1,12. So here it fees out a special blessing of God on Job, so that his cattel increased to mightily, that the fields could not hold them, nor they could not be kept within their worted bounds, but they must break out, and Lek for food abroad. It is like the building out of the pref-

But per join into come now, and week all that he hall, and he will cure there to thy face.]] As if he should fay; Thou halt blelfed him indeed abundantly, but thou hast not tried him yer. Lay some crosse upon him, and if then he do not openly dishonour thee, I thould very much marvel.

But Heb, And, Yet it is often put for But, by way of opposition; as Prov. 14. 1-6 Or, But furely. Which latter word omitted in the translation, is used for corroboration, or confirmation of a thing; as Gen, 28.19, where it flould also be read, But furely. Satan is confident Job afflisted would curfe God.

But put forth thine hand now | Verf. 12. God hath no hands like man. It is therefore a limilitude taken from man, who fometimes puts man, 11st therefore a minitude taken from man, who iometimes puts forth his hand for good to others, 2s Prov. 31, 20. by giving to the poor. So also God opens his hand to feed all living recurrers, Phil. 104, 28, 2145, 16. Or to deliver his from their enemies, Phil. 138, 7. & 144.7. Ads 4.30. Sometimes for hurt : Either when men put their hands out to take away mens goods, as Lam. 1,10. or french them out to smite or firste others to their hurt, Eft. 6.2. 1 Sam. 26.9. or to lay hold on them to imprison them; as I King, 13.4. So God stretchesh out his hands to hint men by taking away their goods, or destroying them, Elay 5.25. & 9. often, Pfal. 106. 26. Ez.k. 25.7. 12. 16. Exod 7. 4. So Sitan would have God either to take away or deftroy those precious things he had given Job, or to finite him with that hand that had been put forth to bleffe and protect him. and touch] Sometimes the word fignifieth a light stroke, and flower eth how casie it is for God to destroy the creatures. Abintelech would not have the leaft hurt done to Isaac or his wife. No man must so much as touch them under pain of death, Gen. 29. 11,29. See Pfal. 104. 32. & 105.15. Zech. 2.8. So fome think that Satin not daring to wish much hurt to one whom God so dearly loved, and not doubting but Job would eafily be brought to curse God, wished that fome light loffe might be laid on him by God. But the contrary ap-

tome tight tone might be that off nim by God. But the contrary ap-pears by the words following. And the word is put for a harder floke, verf 19, by finiting; and allo chap. 19, 21, all that he hath; It feems by this translation, that the Devil inten-ded not a light folle, but much mischief 10 Job; that he should lose all, and be made a begger. This is confirmed by Gods large Commission granted to him, ver.12. And by Satans severe execution in thind gramed units the vertes following, taking away all his children, and cattel, and leaving nothing but a feveral melfenger of each loffe to grievehim, and a bid wife to vexe him. Others read it, Touch any thing that he hath. And that agrees well with what went before, Thou half fo belge ed him in, that he never felt the leaft loffe, Lay but some light loffe on him, and he will curfe thee to thy face. Satans intention was to prove Job an hypocrite. Now a good man might fall into impatiprove Josan uspoerne. Low a goed man most tait memparacie in the lode of all pollfillons. So the word \(\) is used for any, and that without a negative particle added, Job 8. 12, it witherth before any other herb. It is an usual short term of an oath, and of a curfe; and the choice of the penalty, if the party Ipeak fallely, is left to God to choole, and to inflict. This thort form of speech is often used in Scripture both by God and men; as Gen. 14.23. Judg. 5. 8. Pial. 89.35. & 95.11. Efay 5.9. & 22.14. & 14. 24. Jenis. II. Thou thinkel every light loffe will make him curfe me to my fice; but thou shalt find him fo well fetled, that the leffe of all will not make him to do it We may marved why Saian having so ample a Con-mission, would space Jobs wife, and some of his servants. They also were in his Commission, and he might have destroyed them as well as the rest, and as much as the cattell, all which he took away. Surely it was not out of love to Job, but for his own ends, that by the bad tidings of the one, or bad counfell of the other, he might be drawn to curfe God.
